SMITH TANK & EQUIPMENT CO.

In 1929 Smith Tank began operations in Tyler, Texas, serving the booming East Texas petroleum industry. Initially a supplier of stationary and truck-mounted tanks for petroleum products, Smith has expanded its product offerings over its 70+ years of operations. Today, we are a favored supplier of liquid storage systems for the food industry, a major supplier of horizontal and vertical aboveground storage tanks (A.S.T.'s) for the petroleum and chemical industries, and a supplier worldwide of water and fuel hauling truck-mounted tanks.

Smith Tank is situated on 28 acres in Tyler, Texas. We have over 84,000 square feet of high bay production area, 10,000 square feet of parts and storage and 2,000 square feet of office space. We design and manufacture tanks in mild and high-strength steel, stainless steel and aluminum in sizes ranging from 100 gallons to the largest tanks that can be shipped.

Smith Tank is an ASME Code Qualified Shop
